

Four questions every American should ask himself

1. HOW CAN I HELP WIN THE WAR?

2. HOW CAN I KEEP THE COST OF LIVING DOWN?

3. HOW CAN I BE SURE TO HAVE SOME MONEY TO TIDE ME OVER THE PERIOD OF RE-ADJUSTMENT WHEN THE WAR IS WON?

4. HOW CAN I GET \$4 FOR \$1?

• An answer to all four questions is: BUY WAR BONDS through the Payroll Savings Plan.

The more bonds you buy, the more quickly we can win the war.

The more bonds you buy, the more you reduce the possibility of a rising cost of living.

The more bonds you buy now, the more money you will have when the war is won.

The more bonds you buy, the more four dollars you'll get for three!

Put at least 10%—not 6%, or 7%, or even 9%, but 10%—of your earnings into War Bonds. Do it through your company. Twenty-one million Americans are doing it now. Let's make it at least 10% for every American!

WHAT YOU SHOULD DO

If you are...

1. Already setting aside 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank. They will be glad to help you start a Plan of your own.

SAVINGS ON FARM FERTILIZER

Farmers who use nitrogenous fertilizers for top-dress, reconditioning will be saved approximately \$225,000 within a year by the 50 per cent freight reduction which became effective May 15. This saving will chiefly affect sales and purchases not paid for until next year have already bought their 1943 requirements. The individual's savings will depend upon his location and upon the delivery system of the seller.

FOOD FOR 2-WAY FURLOUGH

A Virginia serviceman on a leave of furlough of at least 3 days hereafter will be provided with a complete application form for obtaining rationed food before he leaves camp.

SUGAR SUPPLY FOR 1943

On the basis of prospective 1943 supplies of sugar, the current level of consumption in this country probably can be maintained, the War Food Administration has announced.

The allocation of the prospective supply will be as follows: 1,153,000 tons for the Armed Forces, Lend-Lease and other exports, and 4,600,000 tons for civilian use. The civilian uses include an estimated 2,538,000 tons for household use.

Watch For Poison Ivy

The poison ivy season is with us again, cautions Dr. I. C. Riggins, State Health Commissioner. Victory gardeners should be particularly careful in pulling weeds.

Persons exposed to poison ivy should scrub exposed portions of the skin with hot water and soap and then apply a 50-50 solution of water and alcohol, or a teaspoon of baking soda in a pint of hot water, Dr. Riggins said. If skin eruptions develop, call the family doctor at once.

The individual's savings will depend upon his location and upon the delivery system of the seller.

Millions of American women today face new problems in the preparation and preservation of food.

Gas rationing means fewer trips to the market. Milk deliveries are curtailed, hence more milk will have to be stored. Food rationing is revolutionizing food buying and storing habits. Canned goods scarcity means increased use of fresh vegetables, soups, etc.—hence greater need for refrigeration.

These facts and others mean that the refrigerator will be called on to do more work than ever. Yet it is one year older! New ones are impossible to get. Parts are scarce and service facilities greatly reduced.

It will pay you to do all the big and little things necessary for efficient operation. For timely ideas, read your favorite magazines and newspapers or see Your Dealer or our Home Economist. And remember—refrigerators work most in the hot summer months, so prepare NOW.

What You Buy With WAR BONDS

Pig Boat

At sea on a submarine isn't exactly the "life of Riley." In the Battle of the Atlantic, or on the great stretches of the Pacific these sailors know the hazards of their work.

One of the spots aboard these "Pig Boats" that all crew members enjoy is the galley, or kitchen. Space limitations prevent an elaborate set-up, but cooks aboard these vessels are justly proud of the meals they prepare for their crews. Your increased purchase of War Bonds helps make submarine life as pleasant as possible.
